SKILLS

- Ruby
- Ruby on Rails
- RSpec
- JavaScript
- jQuery
- React
- Redux
- SQL
- Git
- C#
- ASP .NET

EDUCATION

App Academy (Spring 2018)
Rigorous 1000-hour software development course with <3% acceptance rate.
Topics include: TDD, scalability, algorithms, OOP, coding style, REST, security, single-page apps, and web development best practices.

United Lubavitcher Yeshivoth (2011 - 2018)
BA in Talmud and Jewish Law (3.9 GPA)
A full-day, unique paired-learning structure with a focus on logical analysis, critical thinking, and communication.

PROJECTS

CrowdSound   Live Site | Github
A SoundCloud inspired site, using Ruby on Rails, React, and Redux
- Implemented a playback bar that continuously plays content while navigating throughout the site by designating a slice of state to update as the audio source changed
- Integrates Redux for unidirectional state management
- Combines Rails' Active Storage with AWS for media retrieval

Angry Nerds   Live Site | Github
An Angry Birds inspired multi-level game using JavaScript and Canvas
- Created artificial gravity and friction to simulate real-world physics
- Used collision detection for objects to determine redirection

Chess   Github
The timeless game of chess, in Ruby
- Implemented rich use of OOP and class inheritance for pieces, resulting in DRY code.

EXPERIENCE

Software Engineer | 2018-2020
RallyBound, *a NeonOne company*
- Grew CRM integrations
- Wrote and managed custom reports for clients
- Migrated legacy admin interface to an SPA with design and permission updates
- Designed and built a highly extensible integrations framework for syncing with multiple fitness apps

Inventory Manager | 2017-2018
Layger Imports
- Head of warehouse inventory for Layger Imports, an Amazon store ranked "Top 30" seller in Canada
- Implemented new Excel based system to significantly optimize warehouse data and reduce catalog errors
